DETAILED ACTION

Allowable Subject Matter

Claims 44-66 are allowed.

The following is an examiner's statement of reasons for allowance: in the environment of a foldable keyboard wherein the electrical contacts of the keys are electrically shorted in the storage position. The closes prior art Malhi '320 teaches a foldable keyboard wherein the keys are in a compress state and are essentially flat in the folded storage state. However, Malhi fails to teach or suggest the electrical contacts of the keys are electrically shorted in the storage state.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Lin '555 (which is antedated by the present application) teaches a highly pliable keyboard, which may be folded, bent or twisted without affecting the electronic characteristics of the keyboard. wood '311 teaches a low profile keyboard in which keys a stored and at a different height when not in a stored state.
